01

### QUALITY INGREDIENTS

Only fresh ingredients straight from the farm, carefully selected using Sunsweet's strict standards to ensure high quality products.

02

### INTELLIGENT PROCESSING

Sunsweet factory contains advanced technology which is clean, safe, and in harmony with the environment. This is essential for the transmutation of ingredients, and allows for the production of products of the highest quality.

03

### QUALITY PRODUCTION

Be confident in choosing Sunsweet as all of our products are certified by reputable internationally recognized organizations.

"High Quality Products"

"Biogas"

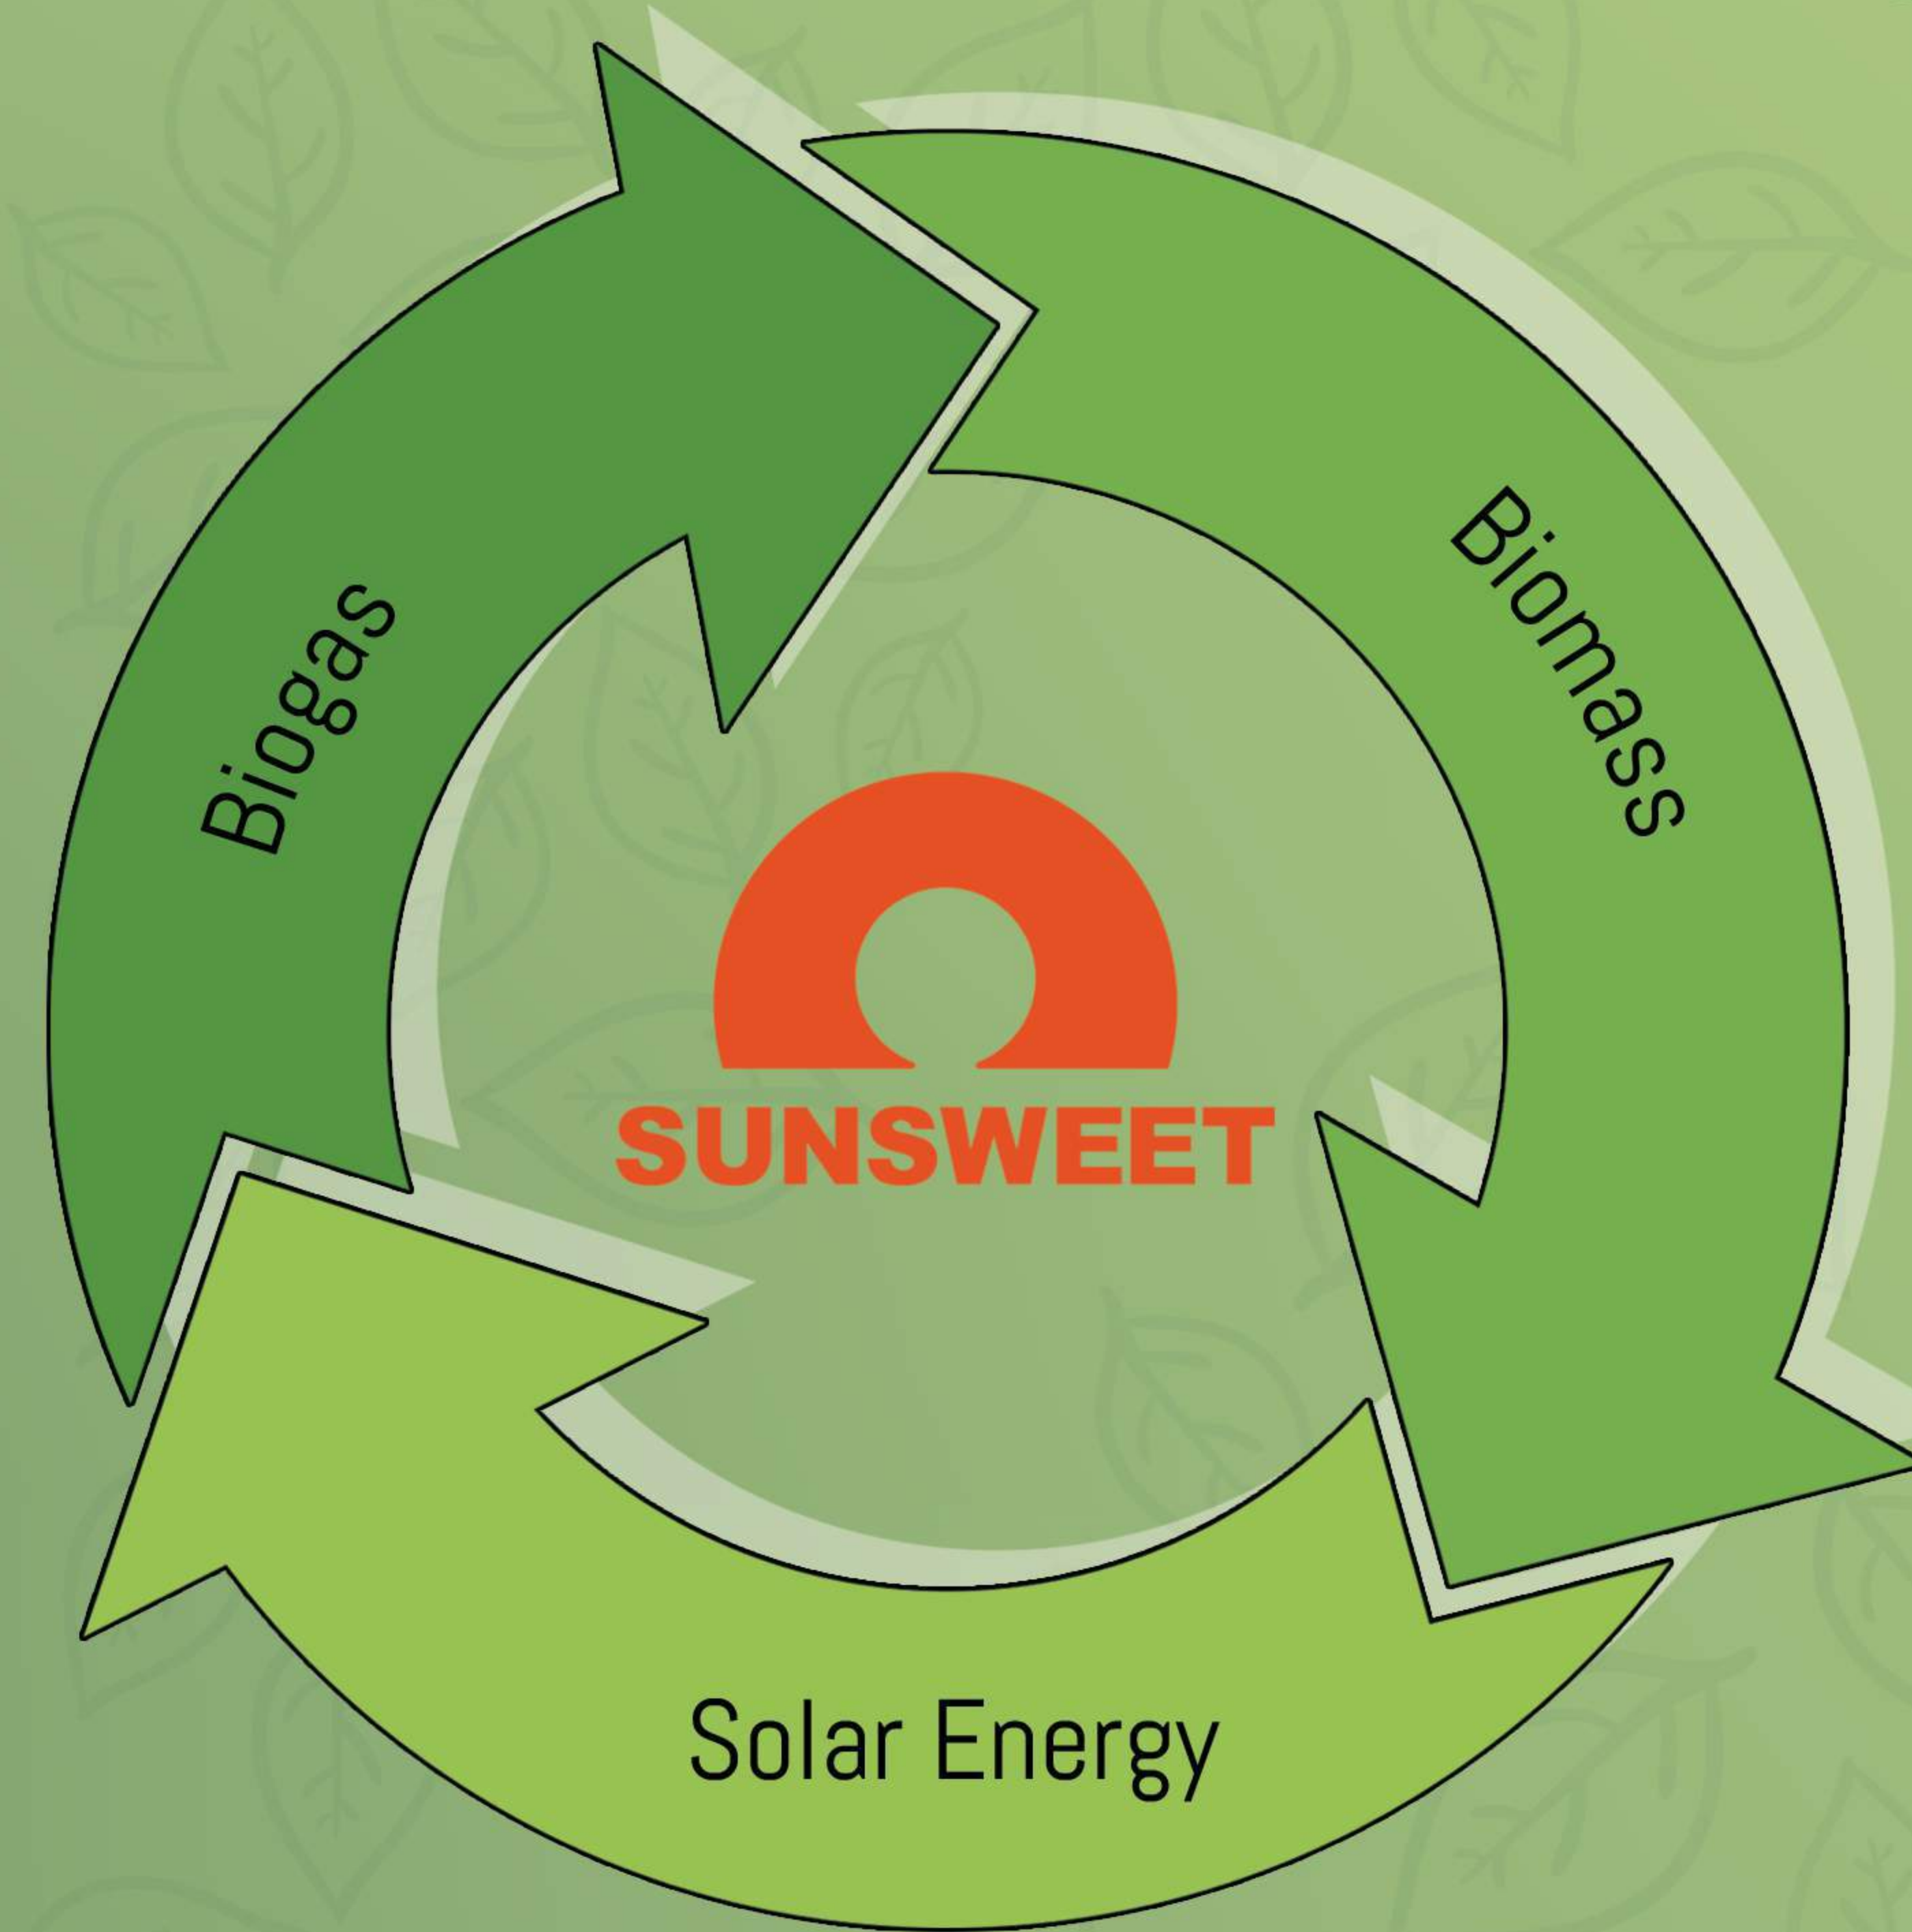

"Biomass"

"Solar Energy"

GREEN ENERGY

# Biogas Biomass

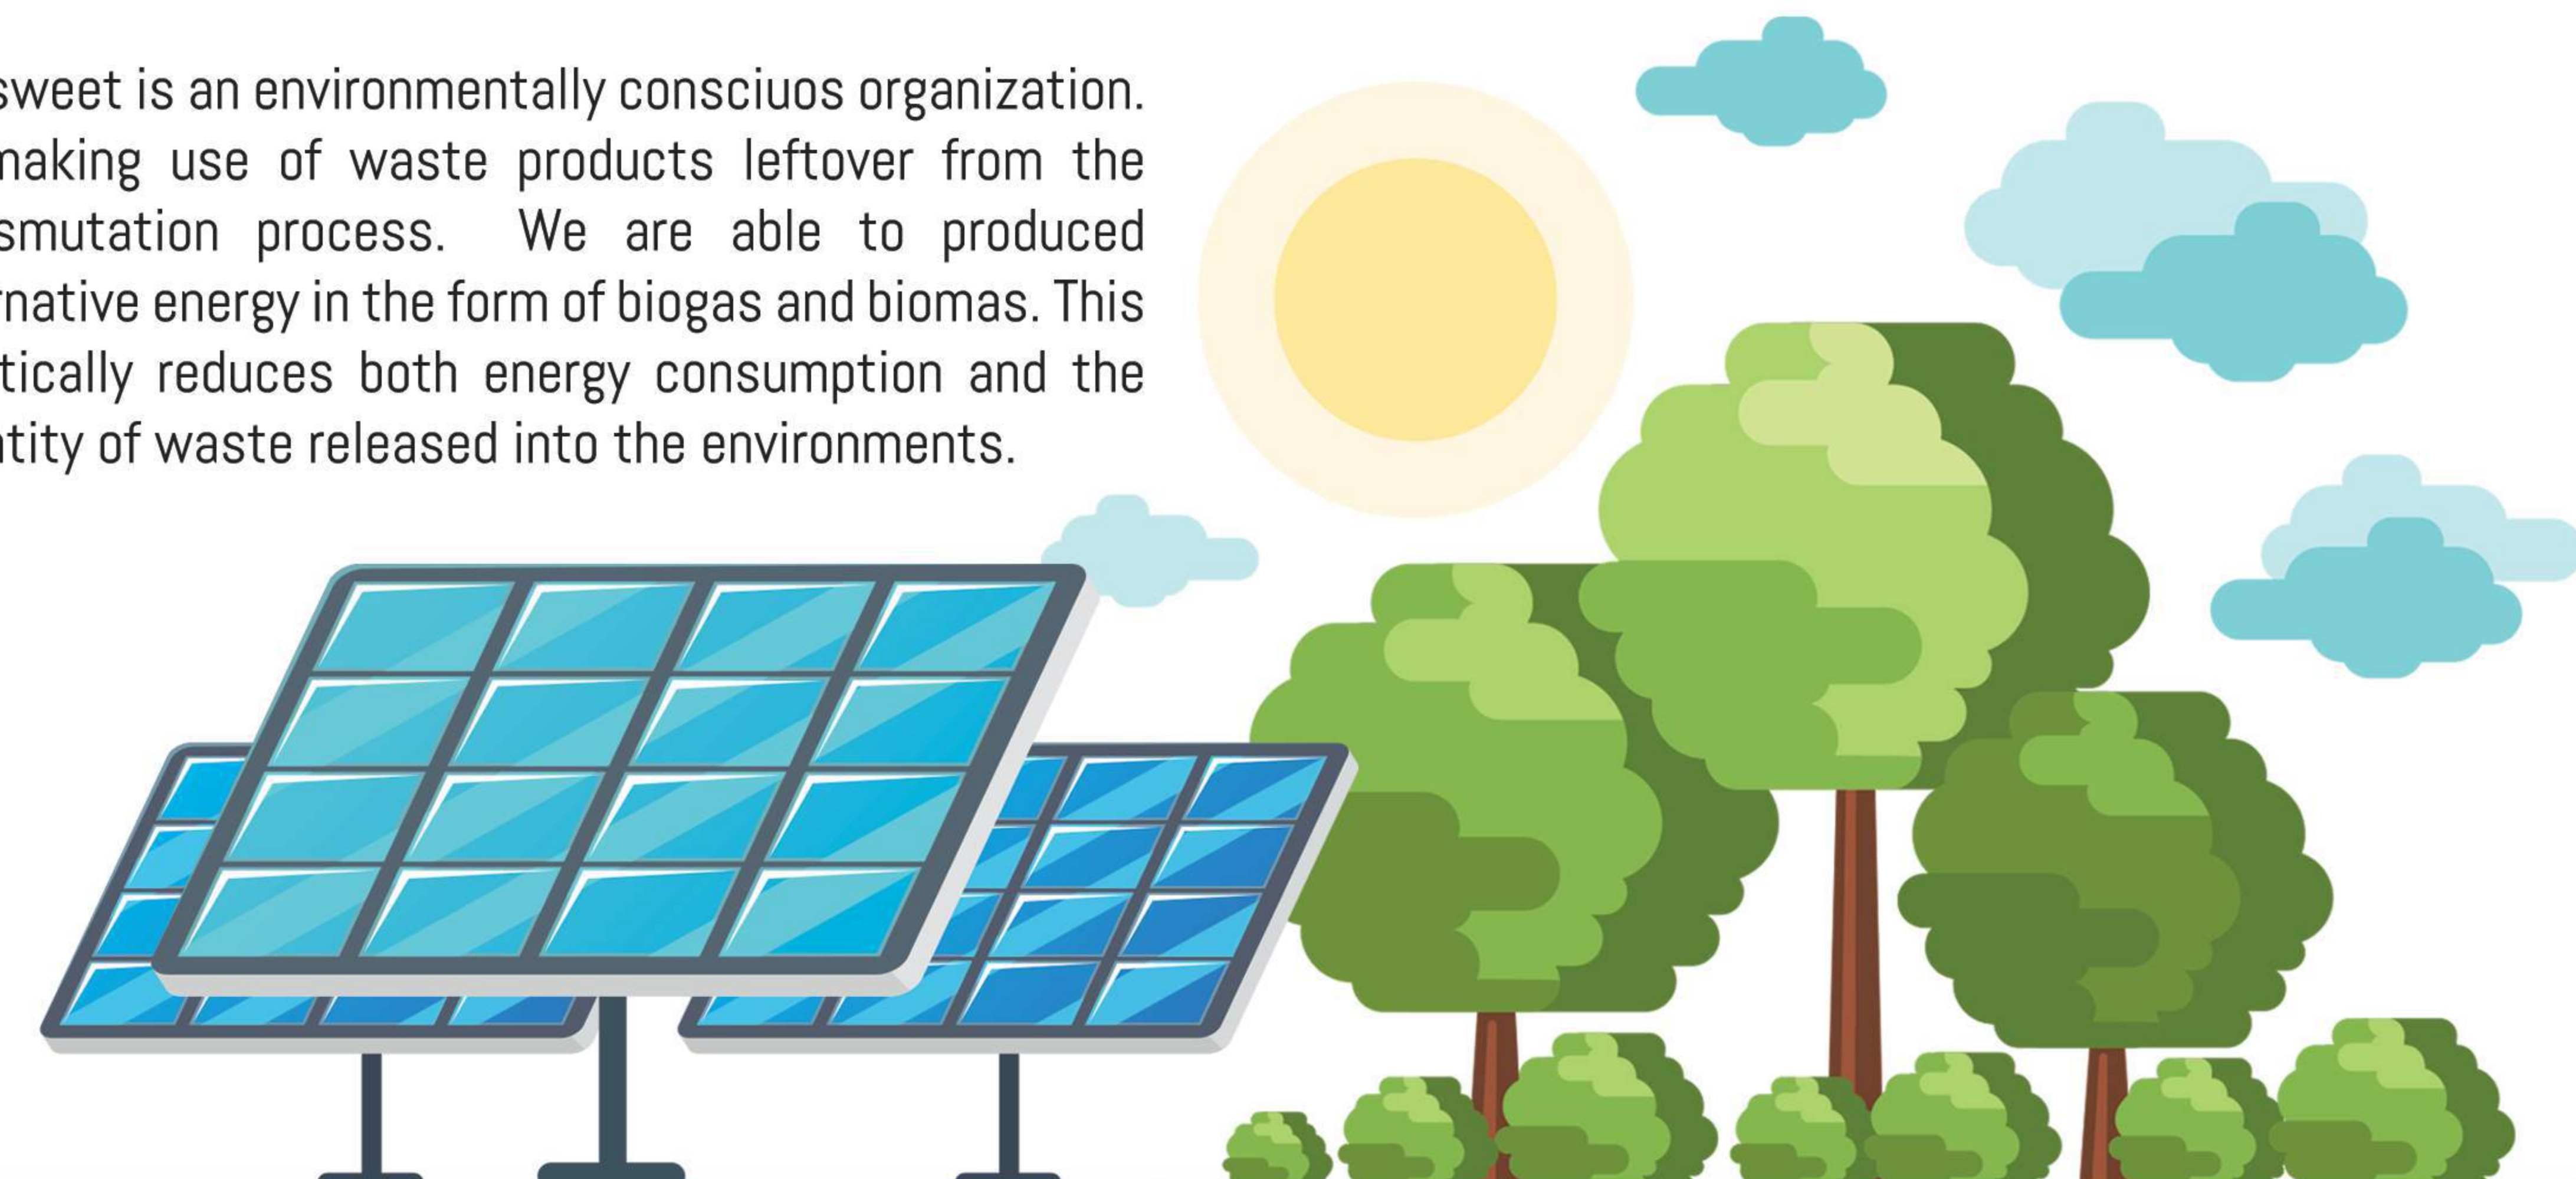

The company manages the factory by using renewable energy from the rest of the raw material, excess energy, and waste from the production process, such as the steam power from the steam generator in the boiling process to be used as renewable energy for use in factory. The corn cob, corn husk and other parts of corn are made into biomass. There is also wastewater management for biogas production to produce electricity for use in some parts of the factory and the rest can be sold to the Provincial Electricity Authority

## Clean Processing

Today, Sunsweet's products are produced with state of the art technology, and are required to meet the highest international production standards, resulting in the finest quality products.

Sunsweet is an environmentally conscious organization. By making use of waste products leftover from the transmutation process. We are able to produced alternative energy in the form of biogas and biomas. This drastically reduces both energy consumption and the quantity of waste released into the environments.

# Smart Farming

- SUSTAINABLE AGRICULTURE -

Sunsweet's Smart farming ; An intelligent method in which Sunsweet develops the sweet corn processing for particular group of farmers using income range and sustain raw material under knowledge and technology to improve the quality of product and safety our customers.

With high quality natural corn plantations in northern Thailand and other provincial part of the country, and the support of a large network of business partners to help discover new sources of ingredients. Sunsweet is able to collect the best quality ingredients for production throughout the year, and meet all customer requirement.
